

THE IMPERIAL ENFORCER

CopperCon XXII

7-September-2002

Issue: 3

Attention Base Personnel

This base is now under **Imperial authority**. Individuals are required to carry personal identification at all times. Failure to do so will result in arrest and confiscation of properties.

The remaining rebel sympathizers will be rounded up within the next few hours. Civilians caught aiding rebels will be arrested and shipped to Kessel. New miners are always needed in the glitter spice mines.

Princess Leia Organa of Alderaan and a handful of her staff are still at large. Lord Vader has authorized a bounty of five million credits for her capture -- *provided she is brought to him intact*. Persons found aiding the princess are subject to immediate termination.

Tip Your Maid

By order of Imperial Command, all convention attendees are hereby directed to leave two U.S. dollars per day for any human servants who provide maid service to your room. If your hotel room is especially trashy, if you throw a party, or if you in any other way drastically inconvenience your maid, you must increase this amount proportionately. Droids need not be tipped at all.

5,000,000 Credit Reward

A bounty of five million credits has been offered for the capture and *intact* delivery of Princess Leia Organa to Lord Vader. All bounty hunters interested in this reward should report to Lord Vader upon arrival at CopperCon Base XXII for specific instructions and authorization codes.

Masquerade Information

The pathetic Rebel Masquerade scheduled for this evening has been taken under Imperial control and will be presented for the glory of the Emperor at 1900 hours tonight. All individuals with costumes are ordered to report to the contestant meeting at 1300 hours today, at suite 2007. Operations of the Masquerade, with Imperial permission, remains under the control of the Southwest Costumer's Guild.

Contestants must present their credentials, music, and announcer's script for clearance at this meeting. Failure to do so will result in severe penalties. All information will be entered into Imperial databases during this meeting. Time will also be granted for those who wish to practice. Practice is highly recommended as the Emperor will present the best costume with a special award. Those whose costumes are poorly prepared or whose presentations do not meet Imperial standards will be sent immediately to the penal colonies on Kessel.

Directly prior to the actual Imperial Masquerade, contestants will meet in the Green Room at 1750 hours for Workmanship Judging. All contestants must be in place at the Green Room by 1800 hours so that pictures can be taken, Velavision interviews conducted, and final clearance of credentials issued.

Masquerade attendees will need to take the shuttle to Coruscant and enter from the west side. All attendees will be checked for proper identification before admittance and should be in their seats prior to the Emperor's entrance, which will be promptly at 1900 hours. Normal Imperial policy of locking the doors for security reasons will be followed.

Rodent Bounty

Imperial forces are aware of the pilferage problem that has been plaguing this facility. A bounty of 20 credits apiece on all Jawas caught within the perimeter has been authorized. Anyone else caught in unauthorized areas or with unauthorized equipment will be arrested.
